## Evening and Overnight Rain Chances

Showers and Thunderstorms will quickly move off to the northeast

Weather Forecast Office  
Lubbock, TX  
Issued Jan 24, 2021 4:37 AM CST

An upper level storm system will bring measurable rainfall and thunderstorms back to the region this afternoon into the overnight hours. A few marginally severe thunderstorms (storms capable of producing hail up to an inch in diameter) will be possible across the eastern Rolling Plains tonight.

## Sunday Night Severe Storms

Timing: Mainly evening and overnight

Weather Forecast Office  
Norman, OK  
Issued Jan 24, 2021 5:00 AM CST

A few severe storms with hail up to the size of quarters are possible late Sunday into early Monday morning.

# Hazardous Weather

## Sunday through Monday Morning Severe Weather Forecast

Weather Forecast Office  
Fort Worth, TX

Issued January 24, 2021 3:26 AM CT

Thunderstorms are expected to develop near a warm front late Sunday with another round of thunderstorms Sunday night ahead of a cold front. Some of these thunderstorms may be severe with hail and damaging winds being the main threats. A conditional risk for tornadoes and may exist if thunderstorms are able to realize the stronger wind shear and better moisture in the lower levels of the atmosphere.

## Severe Weather Risk - This Evening/Tonight

Weather Forecast Office  
Shreveport, LA

Issued January 24, 2021 6:20 AM CT

Valid through 7:00 AM CDT Tuesday

Little change in the SPC Day 1 outlook for severe thunderstorms this evening as the surface low pressure moves across Oklahoma into northwest Arkansas by daybreak. The main threat remains large hail from elevated thunderstorms.

# Hazardous Weather

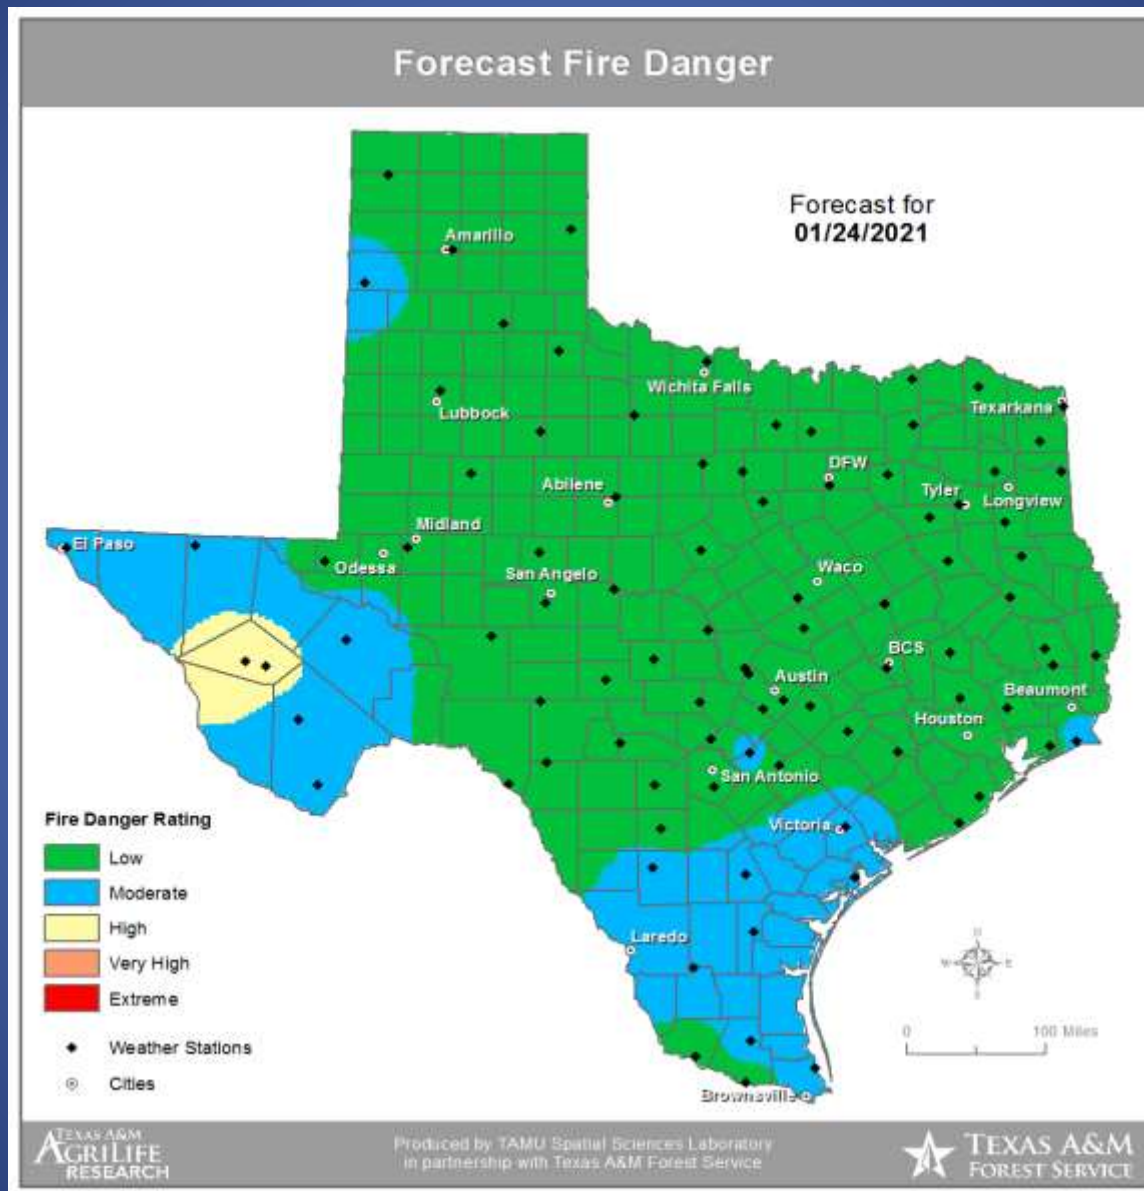

**Current winter weather and wind advisories for a storm system arriving Sunday morning, bringing strong wind and snowfall to parts of our region through Monday morning.**

**A Marginal Risk for severe weather exists over the far NE Permian Basin this evening through tonight. Large hail and damaging winds will be the main threats.**
